

I would like to thank the committee, members and exhibitors for the privilege of judging the club show with an amazing entry of 100 dogs. I thoroughly enjoyed my day, temperaments were excellent, and no health issues were evident although several of the dogs would benefit from shorter nails, improving movement and foot shape.

**Minor Puppy Dog: 3 (2)**

**1<sup>st</sup> Wood's -Red Blooded Lord Byron with Delightbull (NAF)**Fawn black mask- 8mths Neat balanced puppy good dentition and square jaw, dark eyes of moderate size, good width between ears which are of correct size and used well. Straight front and good width of chest, slightly longer in loin, moved effortlessly round the ring, slightly shorter nails might tighten up the feet to complete the picture.

**Puppy Dog: 2**

**1<sup>st</sup> BPD,BOSPIS-Ellis's -Pringhams Promises to Ellsberry**-Fawn black mask- 10mths Excellent well boned and balanced youngster lovely broad head with dark expressive eyes, well defined stop, giving way to domed forehead and good ear placement. Correct body shape with straight front and tight feet correct gentle roach with low set tail of reasonable length, moved well.

**2<sup>nd</sup> O'Neill's-Poetscorner my Morris for Axlbrook**-Fawn black mask- 9mths smaller than 1 with a pleasing head shape good neck, longer in body and needs time to mature, nice angulation movement a little erratic.

**Junior Dog: 3:**

**1<sup>st</sup> RBD, RBIS-Eskrett's-Risethor Sweeney Todd**- Dark Brindle loved this youngster who immediately impressed me and did not disappoint on the table. Super cobby well balanced dog in lovely condition, beautiful head with fine wrinkling on forehead, square jaw which is correctly undershot good fill under eyes, well-padded cheeks. Well defined stop and good width between ears. Good length of neck, tight shoulders and gentle roach, good tuck up, straight front, tight feet and good width of chest with well sprung rib and short loin, nice angulation and a short tail completed the picture. Excellent movement, and at one with his handler, one to watch.

**2<sup>nd</sup> Burton's- Rischdale Edward Beard avec Labanjo**-Fawn dog black mask- Well balanced cobby dog in lovely condition with good head slightly longer muzzle than 1 but super melting dark eyes giving true Frenchie expression. Good square jaw, good width between ears which are of correct size and set. Deep chest and good spring of rib slightly longer in bod, correct tail set and well-muscled, slightly straight in stifle but moved well.

**3<sup>rd</sup> Sanderson's-Wherewithall Byron**-Brindle longer in body, good head and dark eyes giving a nice expression. Well domed forehead and reasonable width between ears of correct size. Would prefer a slightly wider fore chest, gentle roached top line, tail slightly high set. Finer in bone than 1 & 2 and needs time to mature, movement quite loose.

**Yearling Dog: 6 (2)**

**1<sup>st</sup>Eskrett-Risethor Sweeney Todd**

Good length of neck, well set shoulders, straight front and good width of chest, deep brisket, good spring of rib, short loin correct tail set, moved well, maturing nicely.

**3<sup>rd</sup> Bootle's-Tommyville Twill Will**-Tiger Brindle dog Longer in body shape with a more defined roach. Good head well domed forehead and good width between ears which are correctly set. **1<sup>st</sup> Lockett's-Kaliggi's Constantine de Caversmill**-Fawn black mask-Good bone and pleasing outline giving a balanced picture. Nice head good layback defined stop and fine wrinkling giving a lovely expression. Good chest and spring of rib, slightly longer loin, and good tuck up, hindquarters have good angulation and well let down hocks, would prefer slightly tighter feet. Short tail low set, good movement

**2<sup>nd</sup> Bank's-Tommyville Tradition at Nellbank**-Fawn black mask-well balanced slightly shorter than 1 but could change places on another day. Good head soft expression, good overall outline, correct gentle roach, nice short tail low set. Straight front, good spring of rib, short loin, tuck up, short tail and strong well-muscled hindquarters which allowed him to move well.

**3<sup>rd</sup> Firth's-Alsuma Shady Baron**-Brindle good width of head, pleasing dark eyes, correct bat ears. Longer in leg than 1 & 2 finer boned with nice straight front, would prefer slightly deeper chest and broader rib cage, hindquarters could be firmer. Slightly down on pasterns possibly due to long nails.

### **Mid Limit Dog 5:**

Excellent broad head, good square jaw and well defined stop, lovely dark eyes giving soft expression, well-padded cheeks with good fill. Correct dentition, defined stop, good size ears slightly lower set, straight front, good feet, well sprung rib longer in loin, hindquarters reasonable but movement let him down.
